

6. Winning Awards

No.	Name	Name of award/Institute /Date of receiving award
6-1	Hiroki MATSUO IROAST	Excellent Presentation Award, "Domain-engineered BiFeO ₃ -based ferroelectrics with high-photocurrent anisotropy for visible-light polarization detection" The 13th Korea-Japan Conference on Ferroelectrics (KJC-FE 13) Sep. 25-28, 2022
6-2	Mitsuru SASAKI IINa	The Hottest Paper Award, "Study on the optimization of subcritical water liquefaction of vinegar residues and acetic acid fermentation conditions for new vinegar products" The 12th International Conference on Supercritical Fluids Advisory Committee & Organizing Committee of Supergreen 2022 October 24-29, 2022
6-3	Shin-Ichi OHIRA FAST	JAFIA Award 2022, "Development of the key flow devices for sample pretreatment, enrichment, separation and purification on the ionic solutes analysis" Japanese Association for Flow Injection Analysis (JAFIA) November 25, 2022
6-4	Hiroki MATSUO IROAST	The 77th CerSJ Awards for advancements in ceramic science and technology (2022), "Development of Photovoltaic Functions in Perovskite-type Ferroelectric Materials" The Ceramic Society of Japan (CerSJ) November 29, 2022 8 (approved) and June 7, 2023 (scheduled to be received)
6-5	Jonas Karl N. AGUTAYA IROAST	Best Poster Presentation Award in Session C (Chemistry), "Theoretical study of the formation of hydroxyl groups on Pt-doped ZnO (10-10) from the heterolysis of water" The 48th International Congress on Science, Technology and Technology-Based Innovation (48th STT) December 1, 2022
6-6	Makiko KOBAYASHI FAST	The NRC's Impact Award National Research Council of Canada Dec. 12, 2022

FAST : Faculty of Advanced Science and Technology

IINa : Institute of Industrial Nanomaterials
