IROAST Online Poster Presentation Report

No. 4-3	Name	Kei TODA	Title	Professor
	Affiliation	Faculty of Advanced Science and Technology		
Title	IROAST Young Researchers' Online Poster Presentation			
Style	Online using Poster Presentation System			
Time & Date	March 4 - March 10, 2024			
Speaker's Name/ Title/Affiliation	Akira UEDA, Associate Professor, FAST Yoshihiro SEKINE, Associate Professor, POIE Yusuke INOMATA, Assistant Professor, FAST Yi-Lun TSAI, Assistant Professor, FAST/IRCAEB Muhammad Sohail AHAMAD, Specially Appointed Assistant Professor, IINa Wei XU, Assistant Professor, FAST			
Number of Participants	<u>Total: 42 (Int'l participants: 13)</u> Invitees: 0 (Int'l participants: 0)			
<p>1. Overview</p> <p>IROAST has been supporting young researchers belonging to the natural science and technology field in KU for three years.</p> <p>In order to promote cross-disciplinary exchange and collaboration among researchers within the university, as well as to showcase our international research capabilities and further strengthen our international competitiveness and presence, we held an Online Poster Presentation by six researchers from March 4 to 10, 2024.</p> <p>2. Outcomes and Future Plan</p> <p>The five young researchers briefly summarized the contents of their research to explain to a third party people. It was a good training for the presenters to exchange their results with people outside their field of expertise. The presentations inspired the participating researchers and led to have idea for future idea exchanges and collaborations. Published papers were already introduced in the posters, and further publications are expected from the poster contents. The poster presentations were good opportunity for mixing ideas of the young researchers.</p> <p>Total of 42 from professors to doctoral course students in KU participated to this poster presentation. Since those posters were presented with their audio data, participants were able to hear more detailed explanations. This Online Presentation gave us an opportunity to put more emphasis on their interaction through the varieties of discussions.</p>
